That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found is Brown's Iron BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why Brown's IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, mala-ria, intermittent fevers, &c.

> Mr. Simon Blanchard, a well-known citizen of Hayesville, Meade county, Kentucky, says; "My wife had been sick for a long time, and her curstitution was all broken down and she was unable to work.
>
> She was advised to use Boome." She was advised to use Brown's Iron Bitters, and found it to work like a charm. We would not now be without it for any consideration in an consider it the best tour in the world."

What is Thought of Blaine's Scheme.

In commenting on Blaine's new scheme for distributing the whisky tax, the Chicago *Times* says: In real-ity it is another device of protection-

ity it is another device of protectionism striving to prevent any reduction
or modification of the damnable
tariff exactions. Nothing lets go its
grip on the throat of a victim so nnwillingly as licensed robbery.

A Washington correspondent telegraphs: Judge Lowrey of Fort
Wayne, who has been taking an active part in Carlisle's canvass, said
Blaine's proposition was intolerable,
It was the very quintessence of Federalism and centralization. There
would soon cease to be local selfgovernment if the states were to
abolish their own taxation and look abolish their own taxation and look to the general government for their revenues. If the revenues were too large, the only thing to do was to re-duce taxation."

A prominent treasury official said of the plan: "It is the last resource of the high tariff men to avoid the necessity of reducing taxes. If it is immoral to abolish the tax on whisky, then let the government reduce the taxes on some other things."

Judge Murphy was also opposed to the plan, partly because of its cen-tralizing tendency, and partly be-cause of the excuse it offered for keeping up the tariff. Blaine's proposition was the original Pennsyl vania proposition with only a little different form.

Other Democrats spoken to express-ed opposition to this new device in favor of protection and centralization. Judge Buckner of Missouri, thinks it is worth while to undertake to devise some way to dispose of the sur-plus revenue. So long as there is a public debt it should be applied to the payment of that debt. He re-Blaine as only little more objectional than that proposed by Wharton Barker. It would continue in existence an army of gaugers and other internal revenue officers, of whom the southern states complain because of their interference in the elections.

Indee Buckner thinks it would be counter. "No. my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the counter. "No. my dear, we haven't any red

Judge Buckner thinks it would be better to take the tax off the manu-facture of whisky and put it on the consumption of that article by in-creasing it on license. This would require comparatively few officers for search of the article she wanted. coffecting the revenue.
